Myo Minn Oo

(+66) 61-240-5207 dr.myominnoo@gmail.com https://myominnoo.github.io/ linkedin.com/in/myominnoo/

Address: 15 Kanjanavanich Road, Hat Yai, Songkhla, 90110 Thailand

EDUCATION

Ph.D., Epidemiology, Prince of Songkla University — Hat Yai, Thailand
Dissertation: A study of access to healthcare, quality of life, stigma and social support in TB and migration at a border area — **July 2021 (Expected Date)**
Advisors: Prof. Tippawan Liabsuetrakul, Ph.D., Petchawan Pungrassami, Ph.D

The Union, MSF Luxembourg, & WHO TDR — Nepal & Sri Lanka
Certificate in Structured Operational Research Training IniTiative (SORT IT) — **March – December 2015**

University of Medicine — Mandalay, Myanmar (Burma)
MBBS (Bachelor of Medicine, Bachelor of Surgery) — **March 2013**

TEACHING EXPERIENCE

Global Public Service Academies Program, USA — Mae Sot, Thailand
Instructor — 2019
Course: Migrant and Public Health – Mae Sot case study in TB prevention and control

Structured Operational Research Training IniTiative (SORT IT) Courses — Sri Lanka, China, and Myanmar
Mentor and facilitator — 2016 – 2018
Courses: Literature Review, data collection and statistical analysis, Tables and Figures, Infographic for effective communication to policy makers

- Trained and supervised over 20 participants in 9 SORT IT research training courses
- Taught a lecture on using Infographics for effective communication and advocacy in SORT IT module 3 (2016-2018)

RESEARCH EXPERIENCE

Center for Operational Research, South-East Asia Office, The Union — New Delhi, India
Operational Research Fellow — 2016 – 2018

- Conducted 20+ operational research projects in South Asian countries including India and China
- Published 25+ papers in international peer-reviewed journals
- Facilitated Operational Research Priority Agenda workshop for National TB program, Myanmar

WORK EXPERIENCE

The Union Office in Myanmar — Mandalay, Myanmar
Technical Aide — 2016 – 2018

- Provided technical consultation to TB / HIV related projects and research works by The Union Office in Myanmar
- Trained medical officers, managers, and other relevant personnel in evidence-based medicine and research

The Union Office in Myanmar — Mandalay, Myanmar
Monitoring & Evaluation Unit Manager — 2016

- Managed 20+ members of Monitoring and Evaluation unit team of the Integrated HIV Care (IHC) Program and established reputation with good performance at external auditing by LFA
- Initiated the process of updating recording forms, both paper-based and electronic databases used to manage and track over 35,000 HIV-infected patients at the IHC clinics
- Authored an internal report on analysis of current medical databases of the IHC as well as pros and cons of openMRS software and other available medical record systems.

The Union Office in Myanmar — Mandalay, Myanmar
Monitoring & Evaluation Officer — 2014-2016

- Supervised 10+ members of data collection / entry team of the Integrated HIV Care (IHC) Program to ensure quality data and services
- Facilitated two external audit teams and received very favorable feedbacks that helped continue implementing several program's activities
- Completed a 10-month SORT IT research training course (after receiving a major surgery and another critical health incident)

The Union Office in Myanmar — Mandalay, Myanmar
HIV Clinical and Program Coordinator — 2014-2015

- Managed two IHC clinics, collaborated with government staffs to ensure optimal infection control, workflow efficiency, timely drug supply and dispensing, blood sample collection and transportation, and high quality of data and reports
- Supervised HIV Volunteer Network in tracking lost-to-follow-up patients and their monthly activities

AWARDS AND HONORS

Full PhD Scholarship	Prince of Songkla University **Thailand Education Hub for ASEAN Countries (TEH-AC)**	Hat Yai, Thailand August 2018
Research grant	National Institute of Health (NIH) **TB/MDR-TB Research Capacity Building in LMIC in Southeast Asia**	USA April 2019
Research grant	Health Research System Institute (HSRI) **TB and migrants**	Bangkok, Thailand July 2019
Best Oral Presentation Award	Universitas Gadjah Mada **13th Post Graduate Forum on Health System & Policy**	Yogyakarta, Indonesia July 2019

PRESENTATIONS

2019	**Oral**	Unsuccessful treatment outcomes after oral direct-acting antivirals in people with chronic hepatitis C virus infection and its associated factors	**13th International Post Graduate forum on health system and policy, Universitas Gadjah Mada** Yogyakarta, Indonesia
2019	**Poster**	Tuberculosis literacy and completion of household contact investigations: A household-based survey from Southern Thailand	**7th International Health Literacy Conference, Health Literacy in Smart Universal Healthcare** Ho Chi Minh, Vietnam
2020	**Oral**	Coverage of health insurance schemes among Myanmar migrants with tuberculosis in a border area of Thailand and its associated factors: An interim analysis	**51st World Lung Health Conference of The Union** Virtual Conference
2020	**Oral**	Health insurance and out-of-pocket expenditure from symptoms to tuberculosis diagnosis among Myanmar migrants in a border area of Thailand	**The 14th Postgraduate Forum of Health Systems and Policies,** Prince of Songkla University Hat Yai, Thailand,

SKILLS & TRAINING

Data Analysis	Extensive knowledge of R, STATA, and EpiData Working knowledge of Python, SPSS, ArcGIS, Quantum GIS
Programming ability	HTML, CSS, Bootstrap, SQL, JAVA, ACCESS, VB.net
Version control	GitHub, Git
Languages	Native in Burmese and Lisu, Fluent in English, Intermediate in Chinese, and Beginner Thai
Technical training	• Visualization and Modelling of Longitudinal Data using R (2020), Prince of Songkla University • Epidemiology in Public Health Specialization (2020), Johns Hopkins School of Public Health

- Epidemiology in TB (2019), Mahidol University
- TB Microbiology – Wet Lab Training (2019), Mahidol University
- R programming (2020), Data Scientist's toolbox (2020), The Johns Hopkins University

BOOKS

- A DEFINITIVE GUIDE TO mStats

Ph.D. PROJECT

Title	Myanmar migrants with Tuberculosis: health insurance, delays in access to healthcare, model of care on treatment outcomes and quality of life in a border area of Thailand and Myanmar
Design	A prospective cohort study using mixed-methods (2019 – 2020)
Site	Mae Sot, a border area between Thailand and Myanmar
Funding	1) NIH, USA, and 2) HSRI, Thailand
Manuscripts	• Changes in health-related quality of life and the associated factors among Myanmar migrants with tuberculosis: A cohort study (Submitted to BMC Infectious Diseases) • TB-related Stigma, social support scales and associated factors among Myanmar migrants in Thai-Myanmar border area: A confirmatory factor analysis (In progress) • Uptake of health insurance and out-of-pocket expenditures among Myanmar migrants with tuberculosis in a border area of Thailand (In progress) • TB delays and treatment outcomes among a cohort of Myanmar migrants in Thai-Myanmar border (In progress)

R PROJECTS

Data Migration	I developed data products in R for the process of automatic transfer of ~ 45,000 patient records of the IHC clinics to open Medical Record System (OpenMRS) platform used by the National AIDS Programme, NAP Myanmar.
mStats	A R package for data analysis and epidemiological calculation that I developed and maintain with the aim to promote the use of R software to health researchers. Website: https://myominnoo.github.io/pages/rpackages.html GitHub: https://github.com/myominnoo/mStats CRAN: https://cran.r-project.org/web/packages/mStats/index.html
